

Sentinel[®]

In-bay automatic and conveyor compatible

Unitec Electronics introduces the Sentinel, a modern touchscreen-based car wash payment system that simplifies the customer transaction experience and increases throughput with speedy transactions. The Sentinel is designed to work at any in-bay automatic or conveyor and is perfect for the express exterior car wash.

Customer Convenience

Large, 15-inch touchscreen technology and user-friendly screens designed to quickly guide customers through the transaction process. User area is compact and easy to reach.

Flexibility

Choose from a single or dual denomination bill dispenser and up to 3 coin dispensing hoppers. Voice messaging and proximity sensor are standard along with bilingual screen and voice capabilities and up to 8 wash packages. A POS interface option is also available.

Marketing Success

The Sentinel comes standard with customizable discount programs, post-sale advertisements, and VIP Wash Coupons. Optional is Sentinel's Enhanced Marketing Package which gives you access to 100,000+ house accounts, VIP Wash Pass cards and multi-site gift cards. Also an option are customizable graphic panels offering marketing opportunities such as site branding or advertising optional services.

Speed & Volume

The ReachFree ID subscription-based account system, when combined with the Sentinel, offers an additional opportunity to increase wash volume and throughput. By utilizing an RFID tag, the system approves the vehicle and allows it to proceed quickly into the car wash.

High Security

Keep cash secure with a separately-keyed cash box housed in a thick, stainless steel enclosure. Also included is an integrated alarm system. The Sentinel can be outfitted with an optional wide-angle surveillance camera.

Remote Access

Sentinel offers remote access via the Internet to monitor wash activity, generate reports, and more.
