# Wash Select II™

- Increase sales and loyalty options
- Upsell to 3 additional services (wax, tire shine, etc.)
- Interface with WashPay consolidates credit card transactions, shares VIP Wash Pass accounts and allows remote reporting access
- Fleet accounts can be added, edited or deleted through remote reporting
- Also available for the Canadian market

Wash Select II™ is a premium entry system for the unattended automatic carwash market. Its patented, ergonomically-designed angled front, enhanced daylight-readable LCD displays and simple instructions guide customers through the wash process while encouraging the purchase of upgrades. It can accept quarters, bills, credit cards (via modem or Internet connection), tokens, coupon and fleet codes, VIP Wash Pass and VIP Wash Coupons. The multi-coin option accepts quarters, \$1 coins and up to four types of tokens; and is programmable in the field to dispense either quarters or \$1 coins.

The thermal printer option issues cash and credit receipts, accounting reports and configuration reports. With the pager and remote reporting option, the site owner automatically receives system updates and can remotely retrieve system reports. The Wash Select's upgraded heavy-duty door, security bar, dual-sided card reader, optional alarm system and optional surveillance camera keep profits secure.
