

## IN-BAY EXPRESS WASH CONVERSION

**MACNEIL**

# PROFIT IN 35 EASY FEET

**50+**  
cars per hour

Converting to a high-volume mini tunnel is easy, affordable – and profitable

If you've got 35 feet and an underperforming in-bay automatic, you've got what you need to make the switch to a profit-producing mini tunnel. MacNeil's In-bay Express Wash Conversion puts the industry's best mini tunnel retrofit solution into the smallest space, setting you up to triple your throughput.

### IT PAYS TO CONVERT

- Out-of-the-box conversion for slow-moving in-bay automatics requires just 35 feet
- Compete with the upsurge in express tunnels in your market
- Triple your throughput to as many as 50+ cars per hour
- Pump up the profits with the Wheel and Tire Add-on
- Cut installation costs with minimal downtime and little or no site changes
- Save even more through reduced water and chemical consumption

Fits your footprint, fits your budget

Our **In-bay Express Wash Conversion** is just one of the newly affordable innovations from MacNeil. By re-engineering our industry-leading equipment with the latest technologies, we're able to offer you all the quality and performance advantages of a MacNeil at new, lower pricing – and with quicker, simpler installation.

Longer equipment life and a gentle, superior clean

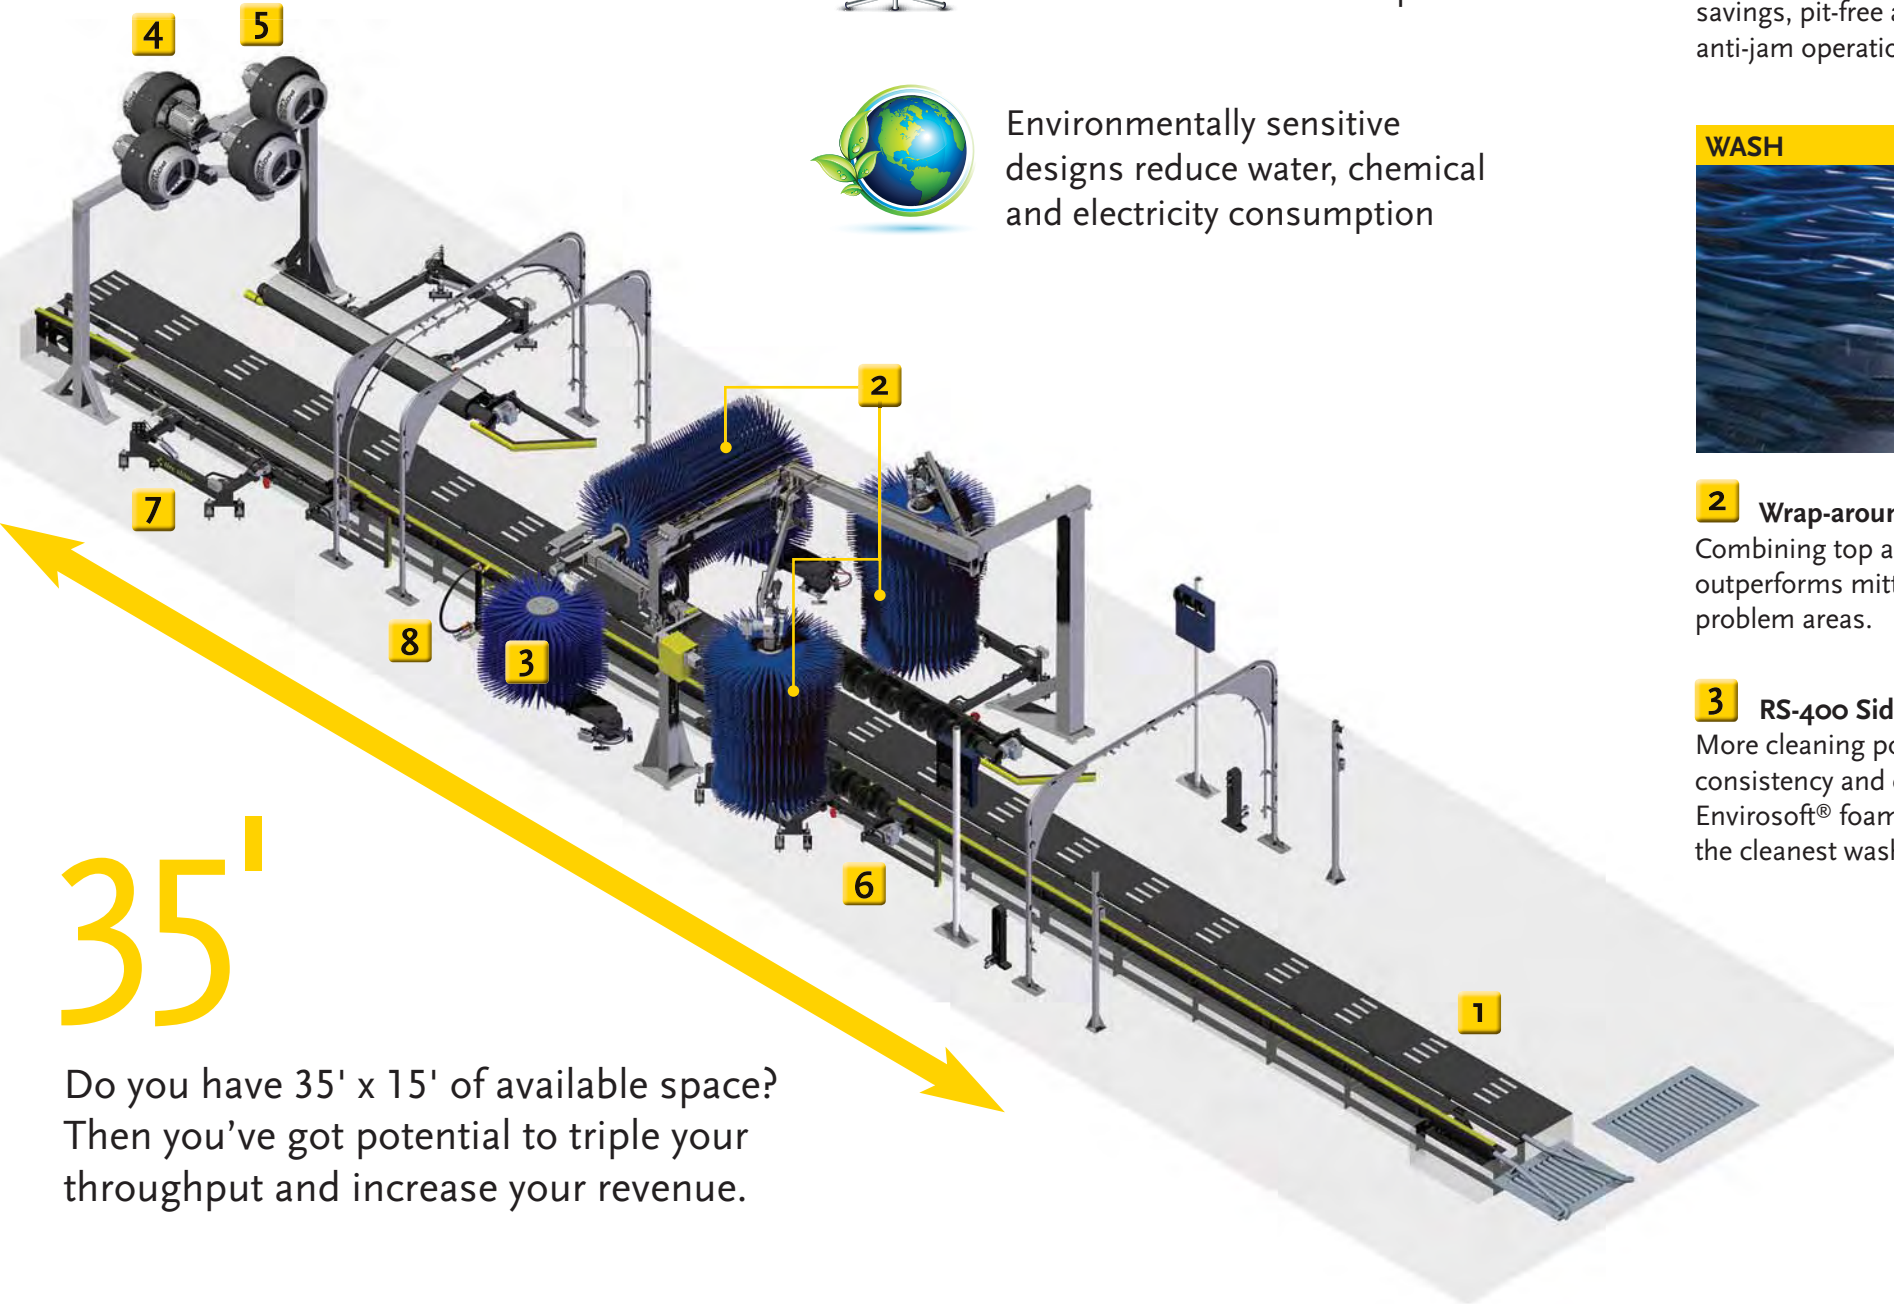

Highest conveyor speeds

Top-quality engineering and automation reduces labor and maintenance and boosts profits

Environmentally sensitive designs reduce water, chemical and electricity consumption

35'

Do you have 35' x 15' of available space? Then you've got potential to triple your throughput and increase your revenue.

It doesn't take much to convert

Give us 35 feet and a slow, underperforming in-bay automatic and we'll transform it into your new profit center. Here's how:

**1 RG-440 Conveyor**  
Rugged industry-leader offers precise control for energy savings, pit-free adjustments and quiet, trouble-free, anti-jam operation.

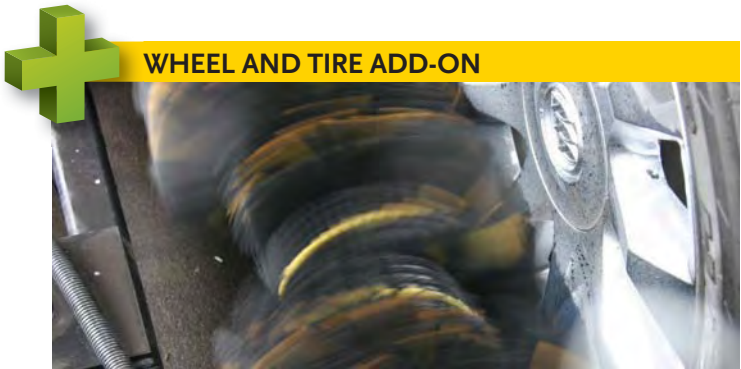

**2 Wrap-around Top Brush Combo**  
Combining top and side brushes, this dynamic duo outperforms mitters and excels in hard-to-reach, problem areas.

**3 RS-400 Side Washer**  
More cleaning power in less space with excellent wash consistency and controlled cleaning pressure. Gentle Envirosoft® foam permits higher rotational speeds for the cleanest wash.

**4 Tech 21**  
Complete airflow control at 165-185 mph for superior drying quality. Optional SMART Nozzles rotate 360 degrees in multiple programmable positions, and time delay increases dwell time on hard-to-dry areas.

**5 Power Locks**  
Prevents debris from blowing out of truck beds. Lightweight, energy-saving air valve dramatically cuts energy consumption and costs by up to 30%.

Boost your new profit center even further by adding three of the industry's top-performing wheel and tire cleaning and shining options.

**6 Wheel Boss**  
Our patented Cam Style foam brush design gets down deep to scrub rims and tires clean.

**7 Gloss Boss**  
Produces shiny tires with a patented precision chemical distribution system that reduces waste and cost.

**8 Magnum Wheel Blaster**  
High-pressure water aggressively cleans alloy rims, tires, wheels and running boards.

## What's in the box?

### CORE EQUIPMENT

- ✓ Wrap-around Top Brush Combo – combines top and side brushes
- ✓ Versa Arches – precise and thorough chemical application
- ✓ Fully electric, including conveyor – sets the industry standard for the safest, easiest and cleanest clean
- ✓ Tech 21 Dryer and Power Locks – safe, thorough and superior drying

### SUPPORT EQUIPMENT

- ✓ MacNeil Tunnel Controller
- ✓ MacNeil Motor Control Center
- ✓ Integrated Wash Water Recycle System
- ✓ Spot Free Water Conditioners

### WHEEL AND TIRE ADD-ON

- ✓ Wheel Boss
- ✓ Gloss Boss
- ✓ Magnum Wheel Blaster

### TECHNICAL REQUIREMENTS

#### In-bay Express Wash Conversion

#### With Wheel and Tire Add-on

Tunnel length	35' (10668 mm)	35' (10668 mm)
Tunnel width	15' (4572 mm)	15' (4572 mm)
Tunnel height	12' (3658 mm)	12' (3658 mm)
Electrical	208 V 200 AMP 460 V 100 AMP	208 V 350 AMP 460 V 150 AMP
Water	85.1GPM • 322.1L/min	105GPM • 397.5L/min
Air	8 CFM • 226.5L/min 90PSI Min-6 BAR	10 CFM • 283L/min 90PSI Min-6 BAR

Find out how easy it is to convert your underperforming 35' in-bay automatic to a fast-moving, reliable, high performance in-bay express wash. **You can have the best. You can have a MacNeil.**
